

دليل تشغيل الشركات الصغيرة والمتوسطة

لماذا تتعثر الأعمال الجيدة عند التوسع — وما الذي يوقف ذلك؟

The SME Operating Playbook

Why good businesses stall as they grow

Most small businesses in the Gulf do not stall because the work is bad. They stall because the business runs on memory, WhatsApp threads and whoever happens to be on shift. This playbook names the three failures that cause it, and the infrastructure that removes them.

ثلاثة أعطال توقف نمو الشركات الصغيرة

لا علاقة لأيٍّ منها بجودة ما تقدّمه.

Three failures, and none of them are your product

They compound. Each one makes the next harder to see.

01

You are invisible where the decision happens

أنت غير موجود في المكان الذي يتخذ فيه القرار

Buyers compare, ask and decide online — often on WhatsApp and Instagram — long before they contact you. A business with no presence at that moment is not losing to a better competitor. It is losing to a visible one.

02

Nothing holds the business together

لا يوجد نظام واحد يجمع العمل

Leads sit in five places: WhatsApp, a spreadsheet, a notebook, two personal phones and someone's memory. No one view exists, so nothing can be measured, and anything not measured cannot be improved.

03

Output depends on who is working

جودة العمل تتغيّر بتغيّر الموظف

Response time, tone, follow-up and quality all change with the shift. The owner becomes the quality control, which caps the business at the number of hours they can personally watch. This is the ceiling most SMEs never get past.

العطل الثالث هو السقف الحقيقي — لأنه يجعل صاحب العمل نفسه هو النظام.

The third failure is the real ceiling: it makes the owner the system. Hiring does not fix it, because every new hire inherits the same absence of process.

ما الذي يكلفه التأخير فعلياً؟

أرقام من قطاع العقارات — القطاع الذي قسنا فيه الأثر بدقة.

The cost of a slow reply

The clearest measurement comes from real estate, where every portal inquiry is timestamped. The pattern is not specific to property — only the price tag is.

10 min

The threshold

Past roughly ten minutes without a reply, a portal inquiry has usually already moved on.

بعد عشر دقائق، غالباً ما يكون العميل قد انتقل لغيرك

80%

Conversion drop

Conversion falls by about 80% once the response crosses that threshold.

انخفاض التحويل بنحو 80% عند تجاوز تلك المدة

21×

Lift under five minutes

Replying inside five minutes is associated with a 21× higher conversion rate.

الرد خلال أقل من خمس دقائق يرفع التحويل 21 ضعفاً

OMR 5,000+

One missed buyer

Commission lost on a single missed high-value buyer in Omani real estate.

العمولة المفقودة من مشتري واحد ذي قيمة عالية

On these numbers. These are industry figures for lead-response behaviour, not a measurement of our own clients. We publish the distinction because a playbook that blurs it is not worth reading. Our own measured performance is on page 5, and that one is ours.

البنية التي تشغل العمل بدلاً منك

أربع طبقات — كل طبقة تُغلق عطلاً من الأعطال الثلاثة.

Four layers, built and run for you

Think of it the way a developer thinks about infrastructure — except you do not need a developer, because we assemble and operate it.

01

The front office — Layla on WhatsApp

ليلى — موظفة الاستقبال الذكية على واتساب

Answers every inquiry in Arabic or English within seconds, 24/7. Qualifies, books into your calendar, and hands your team a conversation that is ready to act on. **Closes failure 1 and 3.**

02

The front door — a site built to capture

موقع مبني للتحويل، لا للعرض فقط

An Arabic-first site that feeds the same brain rather than sitting apart from it. Every inquiry lands in one place. **Closes failure 1.**

03

The spine — CRM and automated follow-up

نظام موحد مع متابعة تلقائية

One pipeline holding every lead and its history. Follow-up fires on schedule instead of on memory, so nothing depends on who remembered. **Closes failure 2.**

04

The instruments — reporting the owner can read

لوحة تحكم تُظهر ما يحدث فعلاً

Where leads come from, what converts, who responds and how fast. You stop guessing and start managing with numbers. **Closes failure 2 and 3.**

الفرق ليس في الأدوات — بل في أن أحداً ما يركبها ويشغلها ويتحمل مسؤوليتها.

The tools are not the differentiator; plenty of businesses own tools they never finished configuring. The difference is that this is assembled, operated and owned for you.

ما الذي يمكننا إثباته؟

أرقامنا نحن، مقيسة — لا تقديرات.

Our own measured performance

Measured across 498 inbound messages and 79 conversations, April–August 2026.

1 second

Median first response

The middle case, not the best case. Half of all inquiries are answered faster than this.

78.6%

Answered within 30 seconds

371 of 472 answered inquiries received a first reply inside half a minute.

94.8%

Of all inbound answered

472 of 498. We publish this rather than a round number because the gap is the honest part — the system is good, and it is not yet perfect.

Work delivered

Project	What it does
Mawa Real Estate	Real estate leads, ready to call — 66 real units, five buyer fields
BizBay	From chat to qualified lead — buyers and sellers, 24/7
Five Gates	Years of WhatsApp reduced to one clean client file
Mekka Hijama	Three languages, one clear booking path — Arabic, English, Urdu
Reading Jeel	Arabic-first digital bookstore — choose, pay, download
Madrasaty	Learn, practise, test, master — grades 5–12
Wild Muscat	Oman, bottled — Arabic-first luxury fragrance
Royal Fish	Fresh menu, clear directions — English and Dutch

ابدأ صغيراً، ثم وسّع

كل باقة تُغلق عطلاً محدداً وتجعل الباقي التالية قراراً منطقياً.

Three plans, one direction

Monthly subscription plus a one-time setup fee at 1.75× the monthly. Published prices — you should not have to negotiate to find out what something costs.

CATALYST

OMR 40 /mo

+ OMR 70 setup · ≈ \$104/mo

- Layla on WhatsApp, 24/7
- Qualification and booking
- Arabic and English
- One service line

ASCEND

OMR 120 /mo

+ OMR 210 setup · ≈ \$312/mo

- Everything in Catalyst
- Lead-capture website
- Inbound voice
- Nurture sequences
- Live dashboard

APEX

OMR 300 /mo

+ OMR 525 setup · ≈ \$780/mo

- Everything in Ascend
- Routing across the team
- Agents per location
- Outbound reactivation
- Priority coverage

What happens on the audit call

We map your lead flow

How inquiries arrive, where they go, and where they go silent. Arabic or English.

We put a number on it

What the gaps cost you monthly — a figure you can check, not a range.

We show you Layla live

Answering a real message as if she were already working for you.
